Area employees had an opportunity to assess their workplace, management and advancement opportunities.

The Business Journal along with our partners at Quantum Workplace surveyed businesses of all sizes in the metro area to determine who has the best workplace, offers the best amenities and has the best culture.

This week, the Business Journal will release the winners in each size category: [extra small \(10-24 employees\)](#), small (25-49 employees), medium (50-99 employees), large (100-249 employees) and extra-large (250 and more employees).

Where each company ranks will be revealed at the Best Places to Work Awards ceremony on July 18 at Pedrotti's Ranch. [Click here for more information.](#)
